

Technical Datasheet

- o **Grade Name:** Antioxidant Masterbatch MB-AO
- o **Categories:** A high quality antioxidant masterbatch containing best kinds of additives in polyethylene resin.
- o **Processing Methods:** Injection & blow molding
- o **Features:** Improves oxidation properties, Improves OIT properties, Improves thermal and processing stability and Compatible with various polymers.

Physical Properties			
Properties	Value	Unit	Test Method
Appearance	Granule	-	-
Density	0.92	g/cm ³	ISO 1183
Moisture Content	0.1	%	ASTM D570
Addition Content	10-40	%	-
Carrier Resin	Polyethylene	-	-
Addition Rate	0.5-3	%	Depending on desired effect

Typical Properties: These values are not to be considered as product specifications.
